INDEX RERUM 472

INDEX NOMINUM 475

Index rerum ad Vol. 8

(B) = Book review – Buchbesprechung – Livre nouveau

Actinomycin C, and enzyme activity, 363
Adenosine deaminase activity, in liver diseases, 67
Adrenals, rise of liver enzymes in tumor-bearing rats, 241
Agarelektrophorese, Nachweis von Isoenzymen der Lactatdehydrogenase menschlicher Organextrakte, 283
Alkaline phosphatase activity in tissue homogenates, phenolphthalein monophosphate as substrate for determination, 248
– –, quantitative and qualitative study in cells, 413
Amethopterin content, intracellular, and enzyme activity, 353, 363
Amino-acid transport by leucocyte preparations, 113

Blood cells, dihydrofolic reductase, 353, 363
–, leucocyte suspension, amino-acid transport, 113
Bovine serum albumin and pancreatic ribonuclease, coupling through disulfide bonds, 73

Carcinoma of cervix uteri, serum enzymes after therapeutic radiation, 379
Cells, malignant and non-malignant, metabolic activity, 228
–, normal and leukemic, leukocyte alkaline phosphatase, 413
Cellular compartmentalization of lactate dehydrogenase isoenzymes, 456
Cerebrospinal fluid, β-glucuronidase activity, in neurological and mental patients, 97
Ceruloplasmin activity in liver diseases, determination and characterization, 33
Cholinesterase, serum activity in tetanus, 7
Cirrhosis, ceruloplasmin activity, 33
–, serum 5-RNPH activity, 42
Cofactor-type induction, quantitative regulation of specific proteins in animal tissues, 81
Creatine phosphokinase, serum activity in tetanus, 7
Cytochrome oxidase activity of the isolated perfused rabbit kidney, 235

Déplétion-réplétion glucidique, effets sur le métabolisme in vitro du tissu adipeux épididymaire du rat Wistar, régime hyperlipidique, 311
Dihydrofolic reductase in human blood cells, 353, 363
– –, in human tissues, 209
DPN-spezifische Isocitrat-Dehydrogenase, intrazelluläre Verteilung, 161

Elektrophorese, in Agar, Nachweis von Isoenzymen der Lactatdehydrogenase in menschlichen Organextrakten, 283

Enzyme activity, after amethopterin and actinomycin C, 363
– –, and intracellular amethopterin content, 353
– assays, in tissue homogenates, importance of proper substrate concentration, 21
–, serum, after therapeutic radiation, 379
– und Metabolite, Verteilungsmuster des energieliefernden Stoffwechsel in Knorpelgeweben, 421
–, Verhalten nach toxischer Schädigung des Nephrons, 401
Erythrocytes, polymorphisme génétique de la glucose-6-phosphate déshydrogénase, 321, 332
Estrogen and lipoprotein lipase, activity, 451

Fermentaktivitäten, Änderung bei In-vitro-Autolyse eines Leberlappens, 176
Foie, activité glucuronyltransférase hépatique, méthode de dosage, 387
Fructokinase assay, spectrophotometric method using 1-phospho-fructokinase, 341

Glucose-1-Phosphat-Kinase / Phosphoglucomutase-Reaktion, kinetische Mikrobestimmung von Nucleosid-Triphosphate, 189
Glucose-6-phosphate déshydrogénase érythrocytaire, polymorphisme génétique, 321, 332
β-Glucuronidase activity in serum, cerebro-spinal fluid and urine, 97
–, human kidney and urine, 47, 135
–, inhibitors in urine, 266
Glucuronyltransférase, activité hépatique, méthode de dosage, 387
–, nach Behandlung mit Thioacetamid, 203

Hepatitis, ceruloplasmin activity, 33
–, Glucuronyltransferase, 203
–, viral, lysosomal damage in various phases, 215
Hormone-type induction, quantitative regulation of specific proteins in animal tissues, 81
Hyaluronidase, 400 (B)
Hyperbilirubinemia, new-born, serum lactat-dehydrogenase activity, 259

Induction, quantitative regulation of specific proteins in animal tissues, 81
Isocitrat-Dehydrogenase, DPN- und TPN- spezifische, intrazelluläre Verteilung, 161
Isoenzyme der Lactatdehydrogenase, in verschiedenen Organextrakten, 283
–, lactate dehydrogenase, cellular compartmentalization, 456

Kabyle type, polymorphisme génétique de la glucose-6-phosphate déshydrogénase érythrocytaire, 332
Kidney, cytochrome oxidase activity of isolated perfused rabbit kidney, 235
–, human, and urine β-glucuronidase, 47, 135
Knorpelgewebe, Verteilungsmuster von Enzymen und Metaboliten des energieliefernden Stoffwechsels, 421

Lactatdehydrogenase, Isoenzyme, Nachweis in verschiedenen menschlichen Organextrakten, 283
Lactate dehydrogenase isoenzymes, cellular compartmentalization, 456
– – –, of cell culture media and of human effusions, studies, 228
– –, serum activity in tetanus, 7
Lactation, serum xanthine oxidase, 1
Leber, Änderung der Fermentaktivitäten bei In-vivo-Autolyse eines Leberlappens, 176
Lebercirrhose, Glucuronyltransferase, 203
Leukocyte alkaline phosphatase, quantitative and qualitative study in cells, 413
–, preparations, amino-acid transport, 113

Lipoprotein lipase and estrogen, activity, 451
Liver cirrhosis, serum 5-RNPH activity, 42
–, diseases, adenosine deaminase activity, 67
– –, ceruloplasmin activity, 33
–, enzymes, in tumor-bearing rats, adrenals, 241
–, lysosomal damage in various phases of mous viral hepatitis, 215
–, specific estimation of fructose-1-phosphate, 341
Lymph node cell suspension, amino-acid transport, 113
Lysosomal damage in various phases of mouse viral hepatitis, 215

Malignant and non malignant cells, metabolic activity, 228
Meerschweinchen, Glucuronyltransferase nach Behandlung mit Thioacetamid, 203
Mental patients, β-glucuronidase activity in serum, cerebrospinal fluid and urine, 97
Metabolic activity acquired by the media of cultivated malignant and non-malignant cells, 228
Metabolism, development, as related to nutrition symposium in Prague, 471 (B)
Métabolisme in vitro du tissu adipeux épididymaire du rat Wistar, régime hyperlipidique, 298, 311
Metabolite und Enzyme, Verteilungsmuster des energieliefernden Stoffwechsels in Knorpelgeweben, 421
Muscle particles, proteinase activity, 149

Nephron, toxische Schädigung, Verhalten von Enzymen, 401
Neurological and mental patients, β-glucuronidase activity in serum, cerebrospinal fluid and urine, 97
New-born infants, with hyperbilirubinemia, serum lactat-dehydrogenase activity, 259
Nierengewebe, Verhalten von Enzymen nach toxischer Schädigung des Nephrons, 401
Nucleosid-Triphosphate, kinetische Mikrobestimmung in der Glucose-1-Phosphat-Kinase Phosphoglucomutase-Reaktion, 189

Orthoaminophénol, activité glucuronyltransférase hépatique, 387

Pancreatic ribonuclease and bovine serum albumin, coupling through disulfide bonds, 73
Paranitrophénol, activité glucuronyltransférase hépatique, 387
Peritoneale Spülflüssigkeit, Änderung der Fermentaktivitäten bei In-vitro Autolyse eines Leberlappens, 176
Phenolphthalein monophosphate, substrate for determination of alkaline phosphatase activity in tissue homogenates, 248
Phosphatase, leucocyte alkaline, quantitative and qualitative study in cells, 413
Phosphate, kinetische Mikrobestimmung von Nucleosid-Triphosphaten in der Glucose-1-Phosphat-Kinase / Phosphoglucomutase-Reaktion, 189
1-Phosphofructokinase, fructokinase assay with a specific spectrophotometric method, 341
Polymorphisme génétique de la glucose-6-phosphate déshydrogénase érythrocytaire, 321, 332
Pregnancy, serum xanthine oxidase, 1
Proteinase activity in muscle particles, 149
Proteins, quantitative regulation in animal tissues, 81

Radiation, therapeutic, serum enzymes, 379
Rat Wistar CF, régime hyperlipidique, métabolisme in vitro du tissu adipeux epididymaire, 298, 311
Reductase, dihydrofolic, in human blood cells, 353, 363
– –, in human tissues, 209

Régime hyperlipidique, métabolisme in vitro du tissu adipeux épididymaire, 298, 311
5-Ribonucleotide phosphohydrolase, activity in liver cirrhosis, 42

Saccharolactone, inhibition of β-glucuronidase, 266
Serum, Änderung der Fermentaktivität bei In-vitro-Autolyse eines Leberlappens, 176
–, enzyme activities, in tetanus, 7
– –, after therapeutic radiation, 379
–, β-glucuronidase activity, in neurological and mental patients, 97
–, lactat-dehydrogenase activity in newborn infants with hyperbilirubinemia, 259
–, Verhalten von Enzymen nach toxischer Schädigung des Nephrons, 401
–, xanthine oxidase in normal and abnormal pregnancy, 1
Spleen cell suspension, amino-acid transport, 113
Substrate concentration, importance of proper substrate concentration for enzyme assays, 21
Stoffwechsel in Knorpelgeweben, Verteilungsmuster von Enzymen und Metaboliten, 421

Tetanus, serum enzyme activities, 7
Tetrahydrofolate-dependent enzymes and dihydrofolic reductase in human tissues, 209
Thioacetamid, Glucuronyltransferase bei Meerschweinchen, 203
Tissu adipeux épididymaire, métabolisme in vitro, régime hyperlipidique, 298, 311
Tissue homogenates, enzyme assays, 21
– –, phenolphthalein mono-phosphate as substrate for determination of alkaline phosphatase activity, 248
TPN-spezifische Isocitrat-Dehydrogenase, intrazelluläre Verteilung, 161
Tumor-bearing rats, role of adrenals in the rise of liver enzymes, 241
–, research, 400 (B)

Urin, Verhalten von Enzymen nach toxischer Schädigung des Nephrons, 401
Urinary inhibitors of β-glucuronidase, 266
Urine β-glucuronidase activity, in neurological and mental patients, 97
– –, and human kidney, 47, 135

Xanthine oxidase, in pregnancy, 1
